

UFSC

Fantasy Sports Cards

Play fantasy sports 24/7/365

- UFSC makes fantasy simple and allows you to play fantasy on your time 24/7/365.
- Because it a card deck not a team you hold you can play even when the games are not on and you can challenge anyone in the community to a match at anytime.
- Our cards are based on UFFS teams, their brands and their stats.
- The value of your cards at the time you challenge someone is determined buy the fantasy stats that player as earned at that time.
- When you challenge someone you both risk the same amount of SCO in a winner takes all match.
- So you cards values are always changing based on their fantasy performance in the UFFS professional fantasy league.
- Sounds new sounds complicated but its not, here is how you play

STEP 1

Start building your deck by buying card packs on Open Sea or Ultimate sports NFTS.com (packs will be 20% cheaper on the USNFT site)

Card Deck =Team

Card packs will include random players plus
action cards (slap shot, save excetra)

STEP 2 Buy enough packs to build your deck up so you have enough players and action cards for a starting hand.

Be on the look out for power cards. These are athletes that are signed with UFFS, they have additinal power

Starting Hand = Starting line up

Buy and sell cards on the re-sale marketplaces to improve your deck or to make a profit.

Buying and selling Cards = Trading and acquiring players as a GM

STEP 3 You now have a solid deck (team). Time to go out and challenge other players. Hook up to the site challenge, post your SCO, play your cards.

Challenge = Gametime

Remember the value of your players is all ways changing based of their UFFS fantasy stats. This is fantasy sports after all.

Play fantasy sports as much or as little as you want 24/7/365. Yep in season and in the off season its game on.

STEP 4

**Collect your tokens. Winner takes all
minus the rake for the platform and that
sports franchises.**

Tournaments and leagues to come in future
development

STEP 4

Keep building and improving your Deck

Buy New packs

Buy and sell cards on the marketplace to improve your team or simply profit.

UFSC is a revolution in Fantasy, Playing Cards and sports NFTS. Three revolutions at once is a lot! Looking forward to changing things together
